

JAWAHARLAL NEHRU UNIVERSITY

Circular

06.01.2020

It is extremely unfortunate that a few miscreants have severely damaged the information and Communication service (CIS) Systems of the University as part of their continuing agitation. This has caused complete failure of the main power supply of CIS Data Centre, severe damage to Optic fibers cables, and power cables of all racks. The JNU cloud and other information and communication systems are completely shut down. Intranet, wired and wireless, systems are not operational in the campus. As a result, the registration process for winter semester 2020 has completely stopped since the afternoon of 04-01-2020.

All efforts have been made to repair the system and restore the damaged equipment and data by the administration. This is to inform all the students that registration process will remain open until 12-01-2020 without any late fee for registration.
